# Explanation

(text original from UEFA)

Jugada 1	
No offside	A player is in an offside position if any part of his head, body or feet is nearer to the opponents' goal line than the ball and the second last opponent. If the assistant referee is sure that the attacker is leaning forward and has his head/body closer to the goal line than the second last defender, he should signal for an offside offence. Another attacker clearly staying in an offside position is clearly not involved in active play.
Jugada 2	
No offside	The blue player in an offside position does not interfere with the defender who headed the ball, as he does attempt to play the ball, nor he makes any obvious action which clearly impacts on the ability of the defender to play the ball. Play should be restarted with a corner kick
Jugada 3	
Offside	Player in an offside position gains an advantage as he plays the ball which has been saved by the goalkeeper. Play is correctly stopped for offside offence
Jugada 4	
No offside	A player is in not an offside position if no part of his head, body or feet is in the opponents' half (excluding the halfway line). Play is correctly allowed to continue

Jugada 7	
No offside	A player in an offside position does not interfere with an opponent, as he does not challenge him for the ball nor makes an obvious action which clearly impacts on the ability of the opponent to play the ball. Play should be allowed to continue
Jugada 8	
No offside	The white player in offside position is not involved in active play. The assistant referee should adopt "Wait & See" technique and refrain from signaling
